DRAGON MASTER

GraffixPro Studio™
T-SHIRT DESIGN SOFTWARE

www.graffixprostudio.com

MAKE IT UNIQUELY YOURS WITH GRAFFIXPRO STUDIO™ T-SHIRT DESIGN SOFTWARE

Designed specifically for Brother™ Digital T-shirt Printers, this intuitive and powerful software lets you easily enhance your standard T-shirt designs, through advanced design features, to create unique and custom designs. Easily rotate, or resize text and images, add distressed masks or an outline, or change colors. GraffixPro Studio™ Software is perfect for those who love being creative but don't have the time to learn a complicated graphics software or photo editing program.

Get an edge over screen printers. With GraffixPro Studio™ Software you can provide a custom product, without putting in hours of effort. GraffixPro Studio™ Software comes with over 40 fonts, 300+ images/elements† and a library of garment templates, so you can quickly create a personalized design, view it on a garment template and send it to the printer.

ARTWORK/IMAGE LIBRARY

GraffixPro Studio™ Software includes over 300+ images/elements from two catalogs from Action Illustrated's *Standard* and *Elements of Style 1*† Collections, provided as high resolution images in .png format. Images are displayed in an easy-to-view book format. More images and elements will be made available for users to purchase online.*

FONT COLLECTION

With over 40 pre-installed fonts, you can create impressive text almost instantly. Add effects such as an arc, border, distressing, or change font color.

GARMENT TEMPLATE LIBRARY

Get a realistic preview of how your final design will look when printed. Select one of the pre-loaded garment templates, or import your own. Then simply position the design on the garment template in the area on where you would like it to be printed, for a realistic onscreen preview.

CUSTOMIZING & EDITING CAPABILITIES

Transform a basic image into a complex, custom design with these features.

* Apply a border and control the thickness of the border.
* Add a shadow and change the color and size of the shadow.
* Apply a pre-designed mask over the artwork to create a shape.
* Apply a distressed effect to the selected element.
* Position artwork (centered, center horizontal, center vertical) and move up/down.

Specifications subject to change without notice. *Additional purchase required.
†Requires internet connection for activation and to access certain images.
Images for illustrative purposes only.
Samples shown may require white ink model (GT-782/GT-361/GT-381).

CUSTOMIZE YOUR DESIGN SOFTWARE

Enhance the functionality of the software to help customize it for your business needs:

* Add new garment templates.
* Change and create new platen table templates.
* Add new fonts and designs (may require additional purchase).
* Create design and font categories.

FEATURES TO HELP MAXIMIZE YOUR PROFIT POTENTIAL

* COLOR REPLACE TOOL
Change colors on images, auto color match and add a transparent background to an image. A real timesaver!

* SEARCH TOOL
Easily allows you to quickly access desired fonts and images in galleries.

* PRINT FUNCTION
Print directly to a Brother™ printer or create an ARP/AR3 file. Simply select the print button located in the top of the toolbar.

* WATERMARK
Protect artwork that you provide to potential customers by using the watermark feature. Simply create a watermark, and then the watermark can be applied to designs when printed, or when the image is saved.

* QUOTE GENERATOR FEATURE
Converting great artwork into sales is important. The Quote Generator allows for GT users to quickly create custom quotes including the customized artwork, business contact information and the purchasing information. Pricing information for different sizes and colors can be input as well. Once a quote is generated, the software will allow it to be printed out or saved as a file that can be electronically transmitted.

* SAVE AS TEMPLATE
Create template files of artwork that can be easily changed later on. Save the artwork as a flattened image by clicking on the Save Image button, or as a layered file for future editing by clicking on the Save Template button.

FEATURES TO FURTHER ENHANCE YOUR CREATIVITY

The GraffixPro Studio™ Premium* version gives you valuable additional functionality:

* DOUBLE BORDER TOOL
Adds a second border around designs or text for added impact.

* GRAYSCALE CONVERSION
Convert an image to grayscale for a classic, timeless look.

* TEXT GRADIENT OPTION
Create 2-color blended/gradient lettering for a high-end text effect.

* BARCODE OPTION
Assign a 2D barcode to each project for easy design retrieval. Prints automatically on the bottom of the quote and can easily be scanned with most barcode scanners.*
